ProDoc® PD300DHR

Detecto manufactures a variety of waist-high and eye-level weighbeam and digital physician scales. Select from models with mechanical or digital height rods and EMR/EHR connectivity with optional Wi-Fi output. The long-lasting electrostatic powder paint finish on most models provides durable longevity. The heavy-duty solid, stable bases offer patient assurance and safety when standing on the scale. The digital scales offer both optional AC or battery power (batteries not included).

- EMR/EHR connectivity on MedVue-enabled scales:
RS232 serial, USB, or optional Ethernet
- Body Mass Index calculation on digital scales
- Variety of LCD displays types offered

WHEELCHAIR SCALES

Portable and Permanent Scales for All Size Wheelchairs

Detecto's USA-made wheelchair scales provide reliable, stress-free weighing for non-ambulatory, bariatric, and elderly patients. Ideal for use in hospitals, doctors' offices, and home healthcare visits, each wheelchair scale allows clinicians to easily subtract the weight of a wheelchair, walker, or straight-legged chair so that only the patient's weight is displayed.

- Integrated two-way access wheelchair loading ramps
- Low-profile platforms for easy patient access
- EMR/EHR connectivity: Serial, USB, or optional Ethernet

IN-FLOOR SCALES

Ideal for Dialysis Patient Monitoring

Detecto's USA-made in-floor scales are exceptional for dialysis patient monitoring and bariatric weighing. The platform is level with the floor for easy access, so it also works well for multi-purpose weighing. The patient simply walks or is wheeled onto the platform and weighed. Stretchers and beds fit easily onto the 6 ft long model with no need for dual scale systems. The weight is displayed on a recessed or wall-mounted digital readout. The digital indicator is AC powered for continual use. The handrail is optional.

FH Models: 1,000 lb x 0.2 lb / 450 kg x 0.1 kg
36 in W x 36 in D, 48 in W x 36 in D, 48 in W x 48 in D, and 72 in W x 48 in D platforms
